SCHOOL
LESSON PROGRAMMES

We are all about making learning simple and accessible for everyone, so if you are ready to learn, let's get started!

Lessons are taught from 6 years to 96, and we have as many adults learning as we do children. Choose specific lessons for age groups and a choice of times you can find lessons that work for you.

Have a goal in mind? We will work with you to break your goals into manageable chunks, making it far easier to play the music you love. Be guided by great instructors, and lessons that will teach you everything you need to know, plus how to practice at home so you can improve faster.

Whether you want to learn in person, or the convenience of learning online, we have lessons for you.

Both of our brick and mortar schools offer lessons throughout the week. Our Meopham school in Kent (5 mins for the A2), as well as our Ticehurst school in East Sussex, (5 mins from the A21) both offer parking.

We also teach online in all instruments. These are with live teachers every week, and are very much like in person lessons meaning you interact with your teacher and see up close demonstrations, from the convenience of your home or wherever you are in the world.

MUCH MORE THAN MUSIC LESSONS

As well as learning how to play, you will also join a supportive community of others like yourself, helping motivate you on your journey.

Attend special workshops, jam sessions and get involved in performing in one of our student concerts, both in person or online.

Join our private facebook group with news and lessons to help you at home, and to connect with other students. Also a monthly Q&A facebook live for all students and parents.

Gain access to our student portal where you can see your lesson calendar, watch tutorial videos, download pdf lessons, grade books and backing tracks to use at home.

When you start lessons you will be able to learn the songs that 'you' want to learn', as well as focusing on any area that you want to improve on (for example technique, or theory).

We will create lessons based on your goals so that you have simple steps to progress.

Take Rockschool (RSL) grades in Guitar, Bass or Drums right from a beginner stage up to grade 8.

These grades offer a brilliant array of modern day and classic rock/pop music to learn, alongside learning the other technical and theoretical elements, as well as giving you real world musicianship skills.

GUITAR PROGRAMMES

Whether you are beginning or aiming to improve, our group guitar skills programme will help you progress each week. You can jump into lessons any time. We have classes for children and adults whatever level you are.

Unlike most lessons, we tailor everything we teach you personally and for your own level and ability, whether it's working on a song, or learning about a certain musical topic.

Build a repertoire of new songs, improve your chord or lead playing or fill in some gaps in your knowledge, we will help you break down your goals and help you each lesson to achieve them.

Learn new skills and improve the ones you have. Learn at your own pace, and get to make new friends and learn from a community of other guitarists, helping motivate you to succeed.

With a gym lesson format you can choose to take one, two or three classes every week. In those extra classes we focus on extra training you even more so that you progress much faster.

Lessons are 50 min giving you plenty of time to train and get questions answered.

Take your lessons in person from one of our studios, or learn online each week (or even a combination of both!).
